of a Letter from Constantinople, dated August 15.

HO' it was the Opinion of most People, that the Russian Minister who resides here would have been treated but indifferently, and that a Rupture with Russia would have been unavoidable; yet the Ministers of the Porte have thought fit to give Demonstrations of a

to the contrary: Therefore, when it was all expected, the Grand Vizier sent the Russian Ambassador a most complaisant Invitation to dine with him, which he accordingly accepted on the 23d. This Event made a good Impression, the very same of what the former News did, and gave the Porte to dispatch Commissaries to settle the Limits with Russia. The News arriv'd from what has forc'd the Turks to take this Step, as to prepare themselves against the Persians; of which Step they have sent from hence several Chambers (or Battalions) of Janizaries, a great Quantity of Artillery, and other warlike

The Persian Army is computed at 150000 Men, divided into two Bodies, one under Command of Kan himself against the City of Kars in Armenia, and the other under Command of his eldest Son against the great City of Bagdad; the Governor of has represented his Uneasiness and Apprehensions, and desired the Assistance both of Men and Money. The Persian Ambassador that was here, sent out of the Territories of Turkey before his Pursuit could overtake him; and, 'tis said, that he desired the Man who conducted him to the Limits, to present the Ottoman Porte, that Kouli Kan would have forc'd to procure that Satisfaction by Arms, which he had not been able to obtain by his Embassy. He likewise assur'd that 10000 Persians fell upon a people called Couskoff (who live near Bagdad) without Declaration of Complaints, or other Pretences, and used them like Enemies.

Extra of a Letter from the Hague, Oct. 8.

Letters from Petersburg of the 17th September assure us, that all things go extremely well in Finland, so that this War may probably have a quicker Conclusion than was expected. It is indeed strange, having deliberated on it so long, the Swedes should declare War against us before they were in any manner ready to carry it on; for it is certain, that even where they believ'd themselves to have a great superiority, they have undertaken nothing. Veldt Lacy on the other hand was extremely well satisfied with all things, and, as we are inform'd, would two Days after the Battle to invest Frederick, the Head Quarter of the Swedes in Finland, where they have all their Magazines, and which they either relieve, or abandon the best Part of the force as soon as it shall be taken. Our Court seems to be extremely pleas'd with its Success hitherto, yet it is believ'd that they have no Aversion to, in case the Enemy should be wise enough to in time, and on honourable Terms.

Letters from Berlin of the 30th September say, there can form any certain Judgment of his Majesty's Intentions, some being positive, that he is not only on the point of accommodating all Differences with the Queen of Hungary, but even of entering into an Alliance with her against all her Enemies, while others imagine, that he intends to gain by his Negotiations, the rather, because if he has any kind Intentions for the Queen of Hungary, releasing Count Neuperg and his Army from attending the Motions of his Majesty, would be doing an effectual Service, and perhaps might prevent the Siege of Vienna, or at least the Loss of Bohemia. Advice from Hanover of October 3, assure us, that the King of Great Britain's Army is near 60,000 Men, and that he is so far from thinking of a Neutrality, that he has declar'd, that in case the Foreigners continue their March towards his Frontiers, he will be oblig'd to prevent their taking Quarters in adjacent Territories, by previously occupying the same as may best cover his Dominions. Every one is of Opinion, that M. de Bussy will have his

Audience of Leave before the King quits his German Dominions, and we shall soon after know what Turn Things will take, and whether after all we are to have Peace or War.

Virginia, June 12.

By the Honourable the President.

A P R O C L A M A T I O N.

For Encouraging Seamen to Enter on board the Two Sloops now order'd to be fitted out for the Protection of the Trade of this Colony, &c.

WHEREAS several Ships and Vessels have been lately taken near the Capes of this Colony, by Spanish Privateers cruising on the Coast, and some of them in or near the Mouth of our Bay, to the great Interruption of the Trade of this Colony, the Damage and Loss of the Traders residing here, and others his Majesty's British Subjects concern'd therein, and to the Terror of the Inhabitants of the Maritime Parts of this Colony;

And whereas the Honourable the President and Council, for preventing, as much as in them lies, any future Depredations from them, and for securing the Maritime Parts of this Colony from their Insults, have determined, with all Expedition, to fit out Two Sloops for his Majesty's Service, as Private Sloops of War, to annoy the Enemy, as Occasion shall offer:

And whereas the President and Council have appointed Alexander McKensie, John Hutchings, and Robert Tucker, Gentlemen, Commissioners for enlisting Men, and for hiring or impressing Vessels, and fitting them out for the said Service; I have therefore thought fit, by and with the Advice of His Majesty's Council aforesaid, to issue this Proclamation, in His Majesty's Name, to invite all able bodied Seamen, that are willing to serve His Majesty on this urgent Occasion, by letting them know the Encouragements which they are to have; viz.

All able Seamen that shall enlist with the said Commissioners, or those appointed by them for that Purpose, shall enter into present Pay of Forty Shillings current Money per Month; besides their due Share of all Prizes by them taken from the Enemy; and also their due Share of his Majesty's Bounty of Five Pounds Sterling per Head for every Man that shall, at the Beginning of the Engagement, be on board any Vessel of War of the Enemy, that shall by them be either taken, or sunk, or otherwise destroy'd. The said Prizes and Bounty to be equally divided among the Officers and Sailors, according to Custom in such Cases. And for their further Encouragement, I do hereby let them know, that his Majesty has, by a late Act, given the Whole of all Prizes to the Captors.

If any Officer or Sailor shall happen to be killed in an Engagement with the Enemy, the Heirs or Assigns of such Person shall be entitled to receive the Wages then due, and the Share of such Prize as shall be taken in that Engagement.

If any Officer or Sailor chance to be wounded in any Engagement with the Enemy, he shall be maintained and cured out of the Money arising from such Prize as shall at that time be taken; besides his Share of the Remainder.

And I do hereby give publick Notice, that these Sloops will have Orders to return from their Cruise once in two or three Weeks, to give an Account of their Proceedings to the Commissioners aforesaid; who will then deliver up such Seamen as shall be desirous to return to the Ship or Vessel from whence they enter'd, if the said Vessel shall then be ready to sail; and will enlist others newly arriv'd, whose Captains may hire Landmen to load their Vessels, during a Cruise or two: And by this Means, all Vessels will have frequent Opportunities of Convoy off the Coast, as the said Sloops will not have Occasion to stay above a Day or two before they go out again.

I hope, after Notice of such Encouragements to enter into so laudable a Design for the Defence of the Country, and the Protection of the Trade, all able Seamen will readily embrace this Invitation.

Given under my Hand, and the Seal of the Colony, at Williamsburg, the 12th Day of June, in the 15th Year of his Majesty's Reign.

JAMES BLAIR.

THE GRAND ANALEPTIC

OR,
The truly great Restorer of the Generative Faculty.

THIS Analeptick is happily experienced

by All who have used it, to be infallible for the of Impotency, old obdurate Gleet, involuntary Emission and general Defects in the Parts of Generation, so as to from the most surprising Weakness, to an exalted Vigor, even those who were pronounced by several able Physicians Surrogens Incurable. The Proof of which, let these Gentlemen whose Case is so adjudged, commence the Use of the Analeptick, and if it proves not so admirable as to restore them to their youthful Ability, they shall not be charged the same; and if it do, their Honour only shall stand engaged the Recompence, and any other who fall of Cure, his shall be returned. The Application is inward and outward, which, in general Cases, I preceptually affirm, are indispensably necessary to the Cure; in Evidence of which, we apply the outward Application alone, will, in a very Time, find the Stupidity of the Parts removed, and the vitiated Spirits flow again in their natural Course, so as to be done by any Thing taken in at the Mouth, in a much Time, if at all. These Medicines are appointed by the Author, to be sold at Mr. Burley's, the Sign of the Goat at King Cross; and at Mr. Carters's, at the Bible in Popes-Alley, Cornhill; in Five Shillings, Half-Guinea, or 6 Bottles.

surprising Manner, all internal as well as external Hemorrhages, i. e. it infallibly and quickly stops all dangerous Bleedings at the Nose or Gums, spitting or vomiting Blood, also the immoderate Flux of the Hemorrhoides or Hemorrhoidal Urine or Stools, bleeding of large Wounds, bleeding according to the plain Directions given with it as appear by the Certificates of several Eminent Physicians, in the large Account of this Medicine, written by the Doctor himself, and dedicated to the College of Physicians, a little before his Death.

It keeps good for many Years, at Sea or on Shore, at Home or Abroad, i. e. in all Climates, therefore must be universal Useful.
